

ACMS

The **AssessTech Competence Management System (ACMS)** is an online web-based application for managing all aspects of competence. **ACMS** is comprised of a series of modules and apps that can be purchased individually in order to configure a specific system to meet any customer's requirements.

Each of the modules is designed to support a different set of business functions, as follows:

 Base	 Assessment	 Bulletin	 Check
 Forms	 Hours	 Incident	 Licensing

There are also a number of apps (applications for tablet devices) that complement the **ACMS** modules, as follows:
